The outcomes from the Dialogues will be of use in developing the pathway to a healthier and hunger-free America. Each Dialogue will contribute in three distinct ways:

- Direct submission to the White House in advance of the Conference on Hunger, Nutrition, and Health (for events and feedback received prior to the July 15th deadline)
- Published as public facing and searchable documents on the Good Food Dialogues website
- Rolled into a final report that synthesizes the feedback, ideas, and challenges shared throughout all the Good Food Dialogues. This report will not only be submitted to the White House but will also be used to inform a movement for change well beyond the White House Conference.

2. PRINCIPLES OF ENGAGEMENT

HOW DID YOU ORGANIZE THE DIALOGUE SO THAT THE PRINCIPLES WERE INCORPORATED, REINFORCED AND ENHANCED?

The dialogue embraced multi-stakeholder inclusivity by engaging the students on campus with different experiences of campus resources. These different perspectives were used to expand the conversation on the need to make campus nutrition resources more accessible and obstacle-free for all students.

HOW DID YOUR DIALOGUE REFLECT SPECIFIC ASPECTS OF THE PRINCIPLES?

DO YOU HAVE ADVICE FOR OTHER DIALOGUE CONVENORS ABOUT APPRECIATING THE PRINCIPLES OF ENGAGEMENT?

MAIN FINDINGS

- Addressing the need for not only healthy food but access to it
- Limited good food options
 - Accessible food, but not good and overpriced
- Stigmatization of on-campus resources
 - Closed too early (Student and Volunteer ran)
 - Weird hours to be accessed
 - You can donate food dollars from your meal plans to the pantry and they will give it to students (only can donate two swipes a semester, have to set up a meeting with the dean, and then options are given)
 - So lots of obstacles to even obtaining resources due to many higher education regulations
- Government/University Recommendations
 - Put more money into the assistance programs
