DIALOGUE EVENT PAGE	https://goodfooddialogues.com/dialogue/51799/

The outcomes from the Dialogues will be of use in developing the pathway to a healthier and hunger-free America. Each Dialogue will contribute in three distinct ways:

- Direct submission to the White House in advance of the Conference on Hunger, Nutrition, and Health (for events and feedback received prior to the July 15th deadline)
- Published as public facing and searchable documents on the Good Food Dialogues website
- Rolled into a final report that synthesizes the feedback, ideas, and challenges shared throughout all the Good Food Dialogues. This report will not only be submitted to the White House but will also be used to inform a movement for change well beyond the White House Conference.

2. PRINCIPLES OF ENGAGEMENT

HOW DID YOU ORGANIZE THE DIALOGUE SO THAT THE PRINCIPLES WERE INCORPORATED, REINFORCED AND ENHANCED?

The Dialogue incorporated the Principles of Engagement beginning with those who were invited to be participants, it was important that we emphasized inclusivity and diversity to ensure that this was a full, honest, unbiased conversation. The Principles of Engagement were also reinforced throughout the entirety of the Dialogue with the assistance of our Host.

HOW DID YOUR DIALOGUE REFLECT SPECIFIC ASPECTS OF THE PRINCIPLES?

This Dialogue centered the Principles of Engagement by focusing on complimenting the work of others, embracing multi-stakeholder inclusivity, and being respectful. Throughout the session, the participants were able to highlight the work being done in their communities and discuss how different organizations are working to fill in gaps on a local, state, and federal level. Having participants with different backgrounds, perspectives, and frameworks created a Dialogue that indubitably compliments the work of others, embraces diversity and inclusivity, and respect in order to host an effective conversation.

DO YOU HAVE ADVICE FOR OTHER DIALOGUE CONVENORS ABOUT APPRECIATING THE PRINCIPLES OF ENGAGEMENT?

We would advise other Dialogue Convenors to prioritize the Principles of Engagement as they set the tone for the entire Dialogue. Precursing the Dialogue with Respect, Urgency, Trust, Complimenting the work of others, and Inclusivity allows for honest, concise, and robust feedback from all participants.

3. METHOD

4. DIALOGUE FOCUS & OUTCOMES

MAJOR FOCUS

Our discussion was an overview of each individual's experiences with food, access to food, or the lack thereof. We discussed methods and systems that are put in place to make food more affordable and accessible for all, and how those systems can be more effective, more efficient, and more intentional with the communities they serve.

WHITE HOUSE CONFERENCE PILLARS

- 1. Improve food access and affordability
- 2. Integrate nutrition and health
- 3. Empower all consumers to make and have access to healthy choices
- 4. Support physical activity for all
- 5. Enhance nutrition and food security research

MAIN FINDINGS

We found that a lot of communities do have programs in place to support those with limited access whether it be geographic, financial, or other. However, we did explore the limitations of these programs and how they could be improved. For example, small organizations and programs may receive funding to support their initiatives, but that increases the demand for work on an already limited staff. So while the funding is useful, there is also a need for personnel to handle the demands of increased reach that comes with increased funding.

OUTCOMES FOR EACH DISCUSSION TOPIC

One key piece of information that was exposed in the Dialogue was the lack of specificity in the White House pillars. For example, Pillar 4 is to support physical activity for all, but participants wondered how that provides long-term support for the overall goal to create a healthier future. It was even suggested that we consider the White House "pillars" as more of "pathways" as they don't obtain the ability to really hold up a transformed system as much as they are guides to a transformed system.
